Situational Confidence Questionnaire- Heroin (SCQ-H)

SCQ-H items – Incomplete Questionnaire.

Negative emotional states:
If I fell there was nowhere left to turn
If I began to feel fed up with life
If everything was going badly for me

Negative physical states:
If I was in physical pain
If I felt jumpy and physically tense
If my stomach fell like it was tied in knots

Positive emotional states
If something good happened and I felt like celebrating
If I wanted to celebrate special occasions like Christmas or birthdays

Testing personal control
If I wanted to test my willpower by showing I really could stop after one or two blasts
If I started to think I was it new person now and could use occasionally
If I started to think that using once wouldn't cause any harm

Urge and temptations:
If someone gave me smack as a present or as a payment for something
If I was in a situation where I was in the habit of using
If I suddenly had access to smack out of the blue

Interpersonal conflict:
If I felt under a lot of pressure from family members at home
If someone close to me was suffering
If there were fights at home

Social pressure:
If I was invited to someone's house and they offered me smack
If I was out with friends and they used
If someone in the same room was using

Positive emotional states:
If I wanted to celebrate with a friend
If I was out with friends "on the town" and wanted to increase my enjoyment.
