COUNCIL

EU Drugs Action Plan for 2009-2012

(2008/C 326/09)

Introduction

Illicit drugs are a major concern for the citizens of Europe, a major threat to the security and health of European society and a threat to living conditions worldwide.

In December 2004, the European Council unanimously endorsed the EU Drugs Strategy for 2005-2012 ⁽¹⁾, which aims to achieve a high level of protection, well-being and social cohesion by preventing and reducing drug use.

The adoption of the Strategy in itself gave a clear signal that political concern about drugs across the European Union transcends the differences in approach that exist among Member States. The Strategy, implemented by two successive EU Drugs Action Plans, confirmed that all Member States subscribe to the same set of basic principles: that there should be a balanced approach to reducing the supply and demand for drugs, which is based first and foremost on the fundamental principles of EU law and, in every regard, upholds the founding values of the Union: respect for human dignity, liberty, democracy, equality, solidarity, the rule of law and human rights. The Strategy and its Action Plans aim to protect and improve the well-being of society and of the individual, to protect public health, to offer a high level of security for the general public. This should be accompanied by horizontal measures in which drug policy is based on reliable data regarding the nature and extent of the problem, on — increasingly — cross-border — coordination and on cooperation with and towards third countries and international organisations. The Strategy and its Action Plans are also based on the relevant UN Conventions, which are major legal instruments for addressing the world drug problem.

The Drugs Strategy also provides the framework for two consecutive four-year Action Plans. The first **Action Plan (2005-2008)** ⁽²⁾ set out over 80 actions to help coordinate major areas of government intervention in the field of illegal drugs, covering public health, law enforcement, customs, criminal justice and external relations. While implementation is often the responsibility of the Member States, the Commission plays an active part in facilitating and evaluating the work in progress, in addition to monitoring anti-drug legislation, such as Council Framework Decision 2004/757/JHA on Illicit Drug Trafficking, on which it will report in mid 2009. Moreover, guided by the lessons learnt over the past four years, the Commission is now proposing a second Action Plan (2009-2012) to be endorsed by the Council.

What has the present Action Plan on Drugs achieved so far?

The current Plan states as its ultimate aim to:

‘... significantly reduce the prevalence of drug use among the population and to reduce the social and health damage caused by the use of and trade in illicit drugs’.

⁽¹⁾ 15074/04 CORDROGUE 77 SAN 187 ENFOPOL 187 RELEX 564.

⁽²⁾ OJ C 168, 8.7.2005, p. 1.

The evaluation report ⁽¹⁾ is a joint effort by the Commission, the Member States, the European Monitoring Centre on Drugs and Drug Addiction (EMCDDA), Europol, and European NGO networks represented in the Civil Society Forum. It is the most extensive assessment of the implementation of EU drug policy to date and shows that the objectives of the present Plan have been partly achieved:

- drug use in the EU remains at high levels. Available data suggest that the use of heroin, cannabis and synthetic drugs has stabilised or is declining but that cocaine use is rising in a number of Member States. The total number of people in the EU who have at some time taken drugs (lifetime prevalence) — is estimated at 70 million for cannabis, at least 12 million for cocaine, 9,5 million for ecstasy, and 11 million for amphetamines, while at least half a million people are known to be receiving substitution treatment for drugs like heroin ⁽²⁾,
- although there is no reason for complacency, data available for comparable countries in other parts of the world show that the consumption of cannabis, cocaine, and amphetamines in the EU is significantly lower than, for instance, in the US. The same is true for the number of reported HIV infections related to drug injections,
- the evaluation also shows that Member States' drug policies are converging and that there is a shift towards underpinning national policies with action plans,
- evidence so far shows that the EU is succeeding in at least containing the complex social phenomenon of widespread substance use and abuse in the population, and that it is increasingly focusing on measures to address the harm caused by drugs to individuals and society. It is important to note that it has done so in spite of the fact that over the period under review the world's illicit opiate production rose sharply and an unprecedented traffic of cocaine has been targeted at the EU. Seen against this background of sharply increased supply, the EU's record of managing the problem emerges in a more positive light,
- in terms of international cooperation, there is now better coordination of EU positions in international fora on drugs, as in the UN's Commission on Narcotic Drugs (CND) for instance. Moreover, the EU's integrated and balanced approach to drugs is increasingly serving as a model for other countries worldwide.

The current Action Plan (2005-2008) is an ambitious exercise. While progress has been made in many areas, weaknesses have also been identified.

Policy coordination problems persist in many areas, and even if the quality of information on the EU situation regarding drug use, prevention and treatment has consistently improved, considerable knowledge gaps remain: there is a persistent lack of reliable data on drug supply but also on the scope and outcomes of drug-related assistance to third countries.

How to increase commitment across society to reduce drug use

Clearly the EU needs to do more to reduce the impact of health, social, developmental, and economic problems caused by drug use. If millions of Europeans have at some stage taken drugs or are doing so right now, there is a gap between public policy and public behaviour that no society can afford to ignore.

There is evidence to suggest that one of the more (cost-) effective approaches to deal with drug use is for public services engaged in prevention, treatment, harm reduction and law enforcement, to work together in partnership with voluntary organisations and service providers. In other words, an alliance between citizens and the institutions created by them and for them.

It is time to put the people of Europe at the centre of policy in this field and to get Europe's citizens more involved. As a first step, the Commission helped set up the European Civil Society Forum on Drugs, in 2006. To support the implementation of the EU Action Plan on Drugs, the Commission will, during the life of the next Action Plan, examine ways to mobilise all those who wish to take part for a formal commitment to do what is necessary at their level and with the means at their disposal to reduce the harm that drugs do to people. An idea to develop in this respect is the formulation of a 'European Alliance on Drugs', which aims to mobilise a broad range of civil society structures that are active both within and outside the drug field.

⁽²⁾ EMCDDA Annual Report 2007.

Towards a new Action Plan on Drugs 2009-2012

The EU Drugs Strategy deals with a complex phenomenon that requires a long-term approach to bring about change. It is centred on the two key dimensions of drug policy, *drug demand reduction* and *drug supply reduction*, complemented by three cross-cutting themes, *coordination*, *international cooperation* and *information, research and evaluation*.

To support the Strategy, the Commission proposes a new Action Plan on Drugs (2009-2012), which builds on the existing framework but also on the lessons learned over the past four years. With due regard to national legislation, it identifies the following priorities:

1. Improving coordination, cooperation and raising public awareness

Coordination and cooperation in the drug field can be strengthened at both European and national level so that drug policies are relevant to professionals and civil society, while at the same time enabling these structures to provide feedback to inform policy.

2. Reducing the demand for drugs

We need to further improve the effectiveness of measures to reduce drug use and its consequences by improving the coverage, quality and effectiveness of demand reduction interventions, i.e. prevention, treatment and harm reduction services. This includes particular attention for vulnerable groups and the prevention of poly-drug use (combined use of illicit and licit substances, including alcohol, volatile substances and tobacco).

3. Reducing the supply of drugs

We need more effective law enforcement at EU level to counter drug production and trafficking, making full use of the capacities of Europol and other EU structures. Actions should be based on an intelligence-led approach that systematically prioritises the suppliers causing the most harm or posing the most serious threat. The work currently being undertaken to strengthen the links and coherence between the data used by the various EU JHA entities will be necessary to support this. More coordinated operations via regional security platforms should be supported. The new platforms should be set up without overlapping and be compatible with existing structures.

4. Improving international cooperation

The effectiveness of EU, the world's major donor in the struggle for sustainable solutions to the global drug problem, would benefit greatly from better coordination of national and Community policies. We are ready to intensify our commitment in the field of international cooperation to this end, while reaffirming that effective drug control must be based on the concept of a 'balanced approach' — emphasizing that illicit drug cultivation is an important component of drug supply.

5. Improving understanding of the problem

We need to increase our knowledge of all aspects of drug use through more and better coordinated research and data, including data on drug-related crime and on the way the illicit drug supply market works.

The Action Plan that follows is intended as a framework to implement these priorities and to add European value where appropriate.

I. COORDINATION

Main priority: More efficient policy development and implementation

Objective	Action	Timetable	Responsible party	Indicators	Assessment tools
1. Ensure that a balanced and integrated approach is reflected in national policies and in the EU approach towards third countries and in international fora	1. Member States and EU Institutions to effectively coordinate drugs policy to reflect the objectives of the EU Drugs Strategy 2005-2012 and this Action Plan	Ongoing	MS COM Council	Objectives of the EU Drugs Strategy and Action Plans included in national policies Drug policy at EU level reflects the objectives of the Drugs Strategy	Commission Progress Review
2. Ensure effective coordination at EU level	2. The Council's Horizontal Drugs Group (HDG), as the working group with leading and steering responsibility for drugs in the Council, should pro-actively coordinate EU drug policy. The HDG should identify specific areas of work in other Council working groups and work towards effective coordination	Ongoing	Council	Relevant Council Working Parties (1) inform/involve HDG actively and <i>vice versa</i>	Report on drug-related work of Council working groups to HDG
	3. The Commission and Council to ensure coherence between internal and external drug policy	Ongoing	COM Council	Coherence between internal and external drug policy realised By 2010: COM Communication on the coherence between internal and external drug policy	Commission Communication on coordination in internal and external drug policy
	4. The Council to examine the state of the drug problem once a year, on the basis of the Commission's annual progress review, relevant reports from the EMCDDA, Europol and Eurojust	Ongoing	Council COM MS EMCDDA Europol Eurojust	Council conclusions	Presidency conclusions
	5. Presidency to convene meetings of the national drugs coordinators or their equivalents on a regular basis to advance coordination on specific and urgent issues requiring action. The coordinators to be invited to contribute to the Council's annual examination of the state of the drugs problem (see Action 4 above)	Twice annually	PRES MS	Effective impact on policy coordination Council conclusions	Presidency report to HDG

3. Ensure effective coordination at national level	6. Taking into account the work on Drugs coordination mechanisms in all EU Member States made by EMCDDA, Member States to examine inter-departmental coordination on drugs to ensure that coordinated positions are presented at EU level and that the objectives of the EU Action Plan are relayed to the most effective implementing level	Ongoing	MS	Member States' contributions in the HDG and other working groups are coherent	Commission Progress Review Reitox national reporting's
4. Ensure the participation of civil society in drugs policy	7. The Commission to seek at least once a year feedback on drugs policy from the Civil Society Forum on Drugs	Ongoing	COM	Forum meets at least once a year Commission reports outcome to HDG	Commission Progress Review Reports from Civil Society Forum on Drugs
	8. The Commission to launch an initiative, 'The European Alliance on Drugs', inviting civil society organisations across the EU (including e.g. schools, commercial enterprises, public bodies and NGOs) to participate in a common framework designed to create public commitment about and to take action on drug problems in society.	Ongoing	COM	Wide commitment to Alliance (COM)	Activity assessment report
	9. Member States to involve civil society at all appropriate levels of drugs policy, in accordance with national practices	Ongoing	COM MS	Civil society takes part in national dialogue Input received from civil society	Commission Progress Review MS report to COM

II. DEMAND REDUCTION

Main priority: To reduce the demand for drugs, and the health and social consequences of drug use by improving the coverage, quality and effectiveness of services of prevention, treatment and harm reduction

Objective	Action	Timetable	Responsible party	Indicator	Assessment tools
5. Prevent the use of drugs and the risks associated with it	10. To promote innovation in and systematically make available evidence-based and evaluated universal prevention programmes and interventions in different settings (e.g. towards young people in youth centres, and schools and towards adults in workplace and prison), aiming to prevent or delay first use of drugs. Prevention should also cover poly-drug use (combined use of illicit and licit substances, in particular alcohol) as well as drugs and driving	Ongoing	MS	Increased availability of evidence-based evaluated programmes and comprehensive strategies in MS, including those targeting first use Prevalence of youth drug use & perception of peer drug use	Reitox national reporting's ESPAD & HBSC surveys on school children

6. Prevent high risk behaviour of drug users — including injecting drug users — through targeted prevention	11. To further develop early detection and intervention techniques and implement effective, evaluated selective prevention for vulnerable groups at high risk of developing drug problems, including injecting drug use	Ongoing	MS	Trends in drug use Analysis of risk and protective factors in drug use Increased availability of outcome-evaluated, targeted prevention programmes in MS	PDU key epidemiological indicator Reitox national reporting's
	12. To further develop and implement effective, evaluated indicative prevention for specific high-risk groups of (poly-) drug users, by offering low-threshold access to counselling, problem behaviour management and outreach work where relevant	Ongoing	MS	Trends in drug use Analysis of risk and protective factors in drug use Increased availability of outcome-evaluated, targeted prevention programmes in MS	PDU key epidemiological indicator Reitox national reporting's
7. Enhance the effectiveness of drug treatment and rehabilitation by improving the availability, accessibility and quality of services	13. Increase the effectiveness and spread of evidence-based drug treatment options covering a variety of psychosocial and pharmacological approaches, corresponding to the needs of drug users (including relevant treatment adapted to new drugs or types of use)	Ongoing	MS	Trends in treatment demand outcome and retention Increased availability of diversified and evidence-based treatment in MS	TDI key epidemiological indicator Reitox national reporting's
	14. To deliver existing and develop innovative rehabilitation and social re-integration programmes that have measurable outcomes	Ongoing	MS	Increased availability and effectiveness, when possible, of rehabilitation and reintegration programmes in MS	Data on availability of social reintegration Reitox national reporting's
	15. To publicise, where appropriate the existence of treatment and rehabilitation services and the variety of options these services offer at national, regional and local level for potential target audiences	Ongoing	MS	Information strategies in place in MS Public register of services available (e.g. internet portal)	Reitox national reporting's

	16. To increase the use of, monitor implementation and further develop effective alternatives to prison for drug-using offenders	Ongoing	MS	Increased availability of ATP ATP implementation monitored (COM)	
8. Enhance the quality and effectiveness of drug demand reduction activities, taking account of specific needs of drug users according to gender, cultural background, age, etc.	17. To develop, implement and exchange good practice guidelines/quality standards for prevention, treatment, harm reduction and rehabilitation interventions and services	2009-2012	MS COM EMCDDA	Existence of relevant guidelines and/or quality standards Level of implementation of guidelines and/or standards	Commission Progress Review Reitox national reporting's
	18. Member States to survey the availability and effectiveness of prevention, treatment, harm reduction and rehabilitation services, in responding to specific needs, on the basis of a methodological framework to be developed by the Commission — with the support of the EMCDDA — and that is compatible with existing methodologies	2012	MS COM EMCDDA	Methodological framework for the survey developed Number of Member States that complete the survey	COM inventory of MS survey reports
	19. To develop an EU consensus on minimum quality standards and bench-marks for prevention, treatment, harm reduction and rehabilitation interventions and services taking into account needs of specific groups and the work done at national and international level	2012	MS Council COM EMCDDA	Development of the consensus on quality standards and benchmarks for prevention, treatment, harm reduction and rehabilitation interventions and services	COM proposal on EU consensus Council conclusions
	20. To develop, as appropriate, services for minorities, including, for example, migrants	Ongoing	MS	Availability of relevant services	Reitox national reporting's
9. Provide access to health care for drug users in prison to prevent and reduce health-related harms associated with drug abuse	21. To develop and implement prevention, treatment, harm reduction and rehabilitation services for people in prison, equivalent to services available outside prison. Particular emphasis to be placed on follow-up care after release from prison	Ongoing	MS	Drug policies and interventions implemented specifically for delivery of drug services in prison and follow-up of ex-prisoners Decrease in drug-related health problems in prison	Commission Progress Review Reitox national reporting's

	22. Member States to endorse and implement in prison settings indicators to monitor drug use, drug-related health problems and drug services delivery on the basis of a methodological framework developed by the Commission — with the support of the EMCDDA that is compatible with existing methodologies, and taking into account the work done by the UNODC (in the project area of HIV/AIDS and treat.net) and by WHO (Health in prisons)	Ongoing	MS COM EMCDDA	Indicator to monitor drug use, drug-related health problems and drug services conceived and implemented Report on progress	Standardised monitoring protocol for prison drug situation & responses
10. Ensure access to harm reduction services, in order to reduce the spread of HIV/AIDS, hepatitis C and other drug-related blood-borne infectious diseases and to reduce the number of drug-related deaths in the EU	23. To provide access to, and improve coverage of, harm reduction services and the variety of options these services offer options as an integral part of drug demand reduction, making use of interventions of proven effectiveness where available ⁽²⁾	Ongoing	MS	COM to report on progress Decrease in drug-related infectious diseases Decrease in number of drug-related deaths Improved coverage of harm reduction services	COM follow-up survey of CR 2003/488/EC DRID key epidemiological indicator DRD key epidemiological indicator

III. SUPPLY REDUCTION

Main priority: A measurable improvement in the effectiveness of law enforcement in the field of drugs at EU level. Europol, Eurojust and other EU structures to fully exercise the respective roles for which they were created, in the interest of efficiency, EU compatibility of national initiatives, intra-EU coordination, and economies of scale

Objective	Action	Timetable	Responsible party	Indicator	Assessment tools
11. Enhance effective law enforcement cooperation in the EU to counter drug production and trafficking	24. To target criminal organisations and emerging threats, using an intelligence-led approach (based on the European Criminal Intelligence Model (ECIM) methodology) that prioritises the criminal networks and markets that pose the most serious threats	Ongoing	MS Europol Eurojust Council	Number of criminal organisations posing serious threats that are targeted by MS using the ECIM concept Number and nature of emerging threats (such as new drugs, new trafficking routes and methods, new manufacturing methods) identified	EU Organised Threat Assessment (OCTA) (and subsequent Council conclusions setting EU priorities for the fight against organised crime)

<p>25. Multidisciplinary law enforcement operations, involving Europol and Eurojust, as well as police, customs and border control services, will be used to a greater extent through bilateral and multilateral cooperation initiatives, joint investigation teams (JIT) and joint customs operations (JCO). Member States will examine which measures are possible to facilitate and speed up the process and encourage greater use of these instruments in drugs cases</p>	Ongoing	MS Europol Eurojust	Number and outcome of drug-related bilateral and multi-lateral cooperation initiatives, JITs and JCOs Number of MS involved	Commission Progress Review MS reports to COM Assessment report on results achieved
<p>26. To improve the quality of intelligence data provided via Europol National Units to Europol and its related projects including Analysis Work Files (AWF). The emphasis should be on the serious organised crime and cooperation from those Member States most highly impacting upon the wider EU drug markets</p>	2012	MS Europol	Report of Europol assessing the quantity and quality of data received	Commission Progress Review Europol assessment report
<p>27. Implementation of drugs related COSPOL projects, paying special attention to:</p> <ul style="list-style-type: none"> — the input of appropriate levels of expertise in COSPOL meetings, — the value added in terms of appropriate intelligence and investigation capacity, and making appropriate use to this end of already existing or future Analytical Work Files (AWF) 	2012	MS Europol	Expertise of Member States represented at management meetings and the seniority of MS representation Report of COSPOL drivers assessing the increase in identifiable operational results	Commission Progress Review MS reports to COM
<p>28. The European Police College (CEPOL) ⁽³⁾ to provide relevant advanced training ⁽⁴⁾ for senior police and customs officers and for liaison officers in 3rd countries through national police training colleges</p>	Ongoing	CEPOL MS	Curriculum developed for drug law enforcement Additional relevant training included in CEPOL AWP Number of training courses Number of officers trained	Curriculum published CEPOL annual report Commission Progress Review

	<p>29. To make more systematic use of Member State liaison officers and liaison magistrates, where appropriate, in third countries for the exchange of information and intelligence between MS law enforcement agencies and Europol taking into account the Council Decision 2003/170/JHA of the 27 February 2003 on the common use of liaison officers posted abroad by the law enforcement agencies of the Member States in the version of 24 July 2006, Council Decision 2006/560/JHA</p>	Ongoing	MS Europol Eurojust	<p>Increase in international operational law enforcement cooperation reported by Member States, Europol, Eurojust</p> <p>Number of international law enforcement cooperations</p>	<p>Commission Progress Review</p> <p>Evaluation report on MS, Europol and Eurojust contributions</p>
	<p>30. To adopt and implement an EU-wide system for the forensic profiling in relation to drugs law enforcement for synthetic drugs and for other drugs, where appropriate, drawing on, <i>inter alia</i>, the experience gained through projects such as SYNERGY and CHAIN, the structure and expertise of Europol and the Commission's Joint Research Centre, and ongoing MS law enforcement activities and experiences in this area</p>	Ongoing	MS COM Europol	System or systems in place	2012 Progress Review (including the assessment of value)
<p>12. Enhance effective judicial cooperation in the area of combating drug trafficking and law enforcement as regards production, trafficking of drugs and/or precursors, and money laundering related to this traffic</p>	<p>31. To encourage the full use of the existing EU instruments on mutual assistance requests in criminal matters, of European arrest warrants, and of sanctions issued by MS jurisdictions</p>	Ongoing	MS COM Eurojust	<p>Report on best practices and recommendations</p> <p>Increase in number of mutual assistance requests</p> <p>Increase in number of European arrest warrants</p> <p>Other indicators to be developed (cf. Action 61)</p>	<p>COM assessment of Council Framework Decision 2004/757/JHA of 25 October 2004 laying down minimum provisions on the constituent elements of criminal acts and penalties in the field of illicit drug trafficking</p> <p>COM progress review (new indicators)</p>
	<p>32. Member States to consider, where appropriate, to develop witness protection programmes and to explore the potential added value of joint cooperation in this field</p>	2012	MS COM Eurojust	Existing national legislation	Final report by the Presidency

	33. To strengthen the cooperation among EU Member States in order to achieve the full application of the legal instruments relating to mutual recognition of confiscation orders	Ongoing	MS COM Council Eurojust Europol	COM Communication adopted Assessments of assets seized	Commission Progress Review MS reports to COM on assets seized
	34. To support the establishment of effective Asset Recovery Offices in the Member States in accordance with the Council Decision 2007/845/JHA and to further support the Member States involved through the CARIN network. To support investigations through Europol and related Europol AWFs	Ongoing	COM MS Europol Eurojust	Increase in number of supported investigations relating to asset tracing and identification Increase in number and value of cash and assets confiscated	Commission Progress Review COM implementation report on Council Decision 2007/845/JHA
13. Respond rapidly and effectively at operational, policy and political levels to emerging threats (e.g. emerging drugs, new routes)	35. To set up, where necessary, regional security platforms (e.g. MAOC-N, Baltic Sea TF) to counter emerging threats by means of coordinated operational responses. Such action to be compatible with existing legal and operational arrangements at EU level and based on specific threat assessments (see also Action 48). New platforms should be set up without overlapping and be compatible with existing structures	Ongoing	MS Council Europol COM	Response measures to proactively handle risk and minimise threats have been put in place in relatively short time frame Increase in number of criminal operations disrupted (seizures, changing trafficking behaviour) Reports by regional security platforms	Assessment report by MS concerned to Council Security platforms evaluation report
	36. The EU to focus on coordinated and joint efforts between the Member States and regions most highly exposed to particular drug production/trafficking phenomena, in cooperation with Europol as appropriate	Ongoing	MS Europol Eurojust Council	Operational and strategic outcomes of MS action taken	Commission Progress Review MS reports to COM
14. Reduce the manufacture and supply of synthetic drugs	37. Member States to actively maintain law enforcement cooperation/joint operations in this area and to share intelligence and best practices. Optimal use to be made of Europol's Analytical Work File SYNERGY, its components ⁽⁵⁾ and the associated EJUP and COSPOL initiatives	Ongoing	MS Europol Eurojust	Outcomes of joint projects initiated/completed Dismantled production facilities reported to EILCS Number of SYNERGY reports generated	Commission Progress Review

15. Reduce the diversion and trafficking in/via the EU of drug precursors used for the manufacturing of illicit drugs	38. The EU to develop a clear and unified position on this matter at international level and in the relevant international fora, based on existing legislation and cooperative practices with the private sector through effective coordination through the relevant Council committees	Ongoing	COM Council MS	Joint EU positions in international fora	Commission Progress Review COM report on all practices
	39. Customs and border control services to integrate precursor controls at a strategic level, enhancing the effectiveness of border control management through implementing the Community Risk Management, and to coordinate more closely with other law enforcement agencies engaged in combating drug production and trafficking	Ongoing	MS	Improvement in precursor control, detection, seizure and profiling situation compared with 2008 Drawing up of profiles for the determination of chemical precursors	Commission Progress Review MS report to COM
	40. The EU to give full support to international operational cooperation aimed at preventing the diversion of drug precursors, such as the INCB-led projects PRISM and COHESION. The operational cooperation among the investigation authorities within the EU is to be supported by the EJUP cooperation framework and the Europol-AWF co-operation framework. This cooperation framework should be further intensified/utilised	Ongoing	COM MS	Increase in number of stopped and/or seized shipments	Commission Progress Review
	41. From a law enforcement and intelligence-led perspective, the EU and Members States to fully support Europol's drug related projects and EJUP, with a view to combating criminal networks involved in precursor trafficking	Ongoing	MS EJUP Europol	Increase of reporting to Europol projects on precursors trafficking by MS and EJUP	MS and EJUP Progress Report
	42. To evaluate EU drug precursor control legislation and its implementation	Ongoing	COM MS	Conclusion of the evaluation	Report published

	43. The EU to develop and exploit, where possible in consultation with Europol, cooperation agreements with principal identified source countries of main synthetic drug precursors	Ongoing	COM	Agreements established Reduction of illicit shipments of drug precursors from the countries concerned	Commission Progress Review MS Reports to COM
	44. The Commission, OLAF, Europol, EJUP and COSPOL to enhance inter-disciplinary cooperation, with a view to establishing joint initiatives.	Ongoing	COM MS/EJUP Europol	Number of interdisciplinary meetings/joint initiatives established	Commission Progress Review

IV. INTERNATIONAL COOPERATION

Main priority: Improve the effectiveness of EU cooperation with third countries and international organisations in the field of drugs through closer coordination of policies within the EU. Promoting the consistent projection worldwide of the European balanced approach to the drugs problem

Objective	Action	Timetable	Responsible party	Indicator	Assessment tool
16. Systematically include EU drug policy concerns in relations with third countries and regions where appropriate and within the broader development and security agenda. To do so on the basis of strategic planning and coordination between all actors concerned	45. To ensure that EU relations with third countries reflect the objectives of the EU Drugs Strategy and Action Plans	Ongoing	MS COM	Drug policy priorities increasingly reflected in relations with third countries	Agreements, strategy papers, action plans, etc. Commission Progress Review
	46. To improve the effectiveness of existing frameworks on drugs such as the Cooperation and Coordination Mechanism between the EU and LAC, the EU-Andean Specialised Dialogue and of 'Drug Troikas' with third countries and regions, by identifying specific areas of cooperation and establishing outcome indicators	Ongoing	Council COM	Cooperation initiatives established and implemented	Commission Progress Review

<p>47. In line with the EU's political decisions and strategies and with the support of the MS and EC assistance programmes, to address drug-related concerns in producer countries and those along (emerging) trafficking routes, such as West Africa, through projects aimed at reducing the demand for and the supply of drugs, including measures of alternative development, and preventing the diversion of chemical precursors. The assistance is to be coordinated, where appropriate, to the drug action plans between the EU and third countries and regions (see Actions 51 and 60)</p>	Ongoing	COM MS	<p>Drug policy priorities reflected in projects funded</p> <p>Projects funded reflect balance between demand and supply reduction</p> <p>Synergies established between MS and EC funding programmes</p>	Commission Progress Review
<p>48. To step up regional and intra-regional cooperation to reduce the demand for and supply of drugs in third countries with the support of MS and EC funding programmes, such as the Development Cooperation Instrument and the European Development Fund, the Instrument for Stability and the European Neighbourhood Policy Instrument</p>	Ongoing	COM MS	<p>New inter-regional cooperation initiatives established and implemented</p> <p>Synergies established between MS and EC funding programmes</p> <p>Increase in number and overall budget of projects funded</p>	Commission Progress Review
<p>49. In the interest of coordination, to establish a monitoring mechanism on EU drug-related assistance given to third countries</p>	Annual	Council MS COM	<p>Mechanism established</p> <p>Annual reports by this mechanism</p> <p>Overview of drug-related EC and MS projects in third countries</p>	Commission Progress Review
<p>50. To carry out a survey of the scope and outcome of EC drug-related projects in 3rd countries</p>	2010	COM	Survey carried out	COM survey report published
<p>51. To update and implement the EU Drug Action Plans for the Central Asian Republics ⁽⁶⁾; Latin America and the Caribbean ⁽⁷⁾; and Western Balkans and Candidate Countries ⁽⁸⁾</p>	Ongoing	MS COM	<p>Priorities identified</p> <p>Level of implementation of the Action Plans</p>	Commission Progress Review

	52. Utilise the Dublin Group consultative mechanism and maintain an active dialogue with third countries for the implementation of Mini Dublin Groups' recommendations	Ongoing	MS COM Dublin Group	Number of Dublin Group recommendations implemented	Dublin Group Reports
17. Promote and implement the EU approach to alternative development (as defined in document 9597/06 CORDROGUE 44 and UNODC/CND/2008/WG.3/CRP.4) in cooperation with third countries, taking into account human rights, human security and specific framework conditions	53. To intensify the financial support for the implementation of alternative development projects and programmes, making certain that interventions are properly sequenced and that development assistance is not conditional on reductions of illicit drug crop cultivation and finance initiatives for the prevention of illicit drug crop cultivation	Ongoing	MS COM	Number of projects and programmes funded in line with the EU approach on Alternative development (9598/06 CORDROGUE 44 and UNODC/CND/2008/WG.3/CRP.4) Reported decrease in illicit drug crop cultivation and increase of social and economic development at the primary stakeholder level (?) in third countries financially supported from EU funds	(Project/Programmes) Agreements Internal Project and Programme Monitoring and Evaluation system and reports National Statistics of third countries MS Reports to COM
	54. To include alternative development into the broader development agenda of Member States and encourage third countries to integrate alternative development in their national policies	Ongoing	MS COM	National policies, strategies and action plans reflecting drug issues	Poverty Reduction Strategies (PRSP), Country Assistance Strategies CAS), National Development Strategies, (National) Action Plans MS Reports to COM
	55. To contribute to initiatives within a drugs environment aiming at the reduction of poverty, conflict and vulnerability by supporting legal, viable and sustainable livelihoods	Ongoing	MS COM	Number of supported initiatives Impact of the supported initiatives on the sustainability of legal livelihood systems: — food security and income generation of the poor are increased, — access of poor people to social and productive infrastructure are improved Number of evaluated projects that have shown positive impact	Initiatives MS Reports to COM Internal Project and Programme Monitoring and Evaluation system and reports Baseline Surveys implemented by WHO, WFP, FAO

18. Strengthen EU coordination in the multilateral context and promote an integrated and balanced approach	56. To ensure better coordination and continuity between the HDG and MS delegations to the United Nations Commission on Narcotic Drugs (CND), including through the appropriate burden-sharing among Member States on the initiative of the Presidency	2009	Council PRES MS	Coordination between Vienna delegations and HDG strengthened	Commission Progress Review
