About this report

This report presents the top-level overview of the drug phenomenon in Estonia, covering drug supply, use and public health problems as well as drug policy and responses. The statistical data reported relate to 2016 (or most recent year) and are provided to the EMCDDA by the national focal point, unless stated otherwise.

This interactive version of the Country Drug Report is presented in sections. If you would like a print-out of the complete report, a PDF is available in the Publications database. [45]

Partners

About our partner in Estonia

The national focal point is located within the Infectious Disease and Drug Monitoring Department of the NIHD. The department collects, harmonises and analyses data on illicit drugs in Estonia, and disseminates information and cooperates with EU and non-EU national focal points, and other international bodies and organisations

National Institute for Health Development (NIHD) ? Infectious Diseases and Drug Abuse Prevention Department

Hiiu 42
EE-11619 Tallinn
Estonia
